SCROLL

02 ABOUT

I BUILD DIGITAL EXPERIENCES THAT ARE SIMPLE TO USE, HARD TO IGNORE.

I'm a web developer who enjoys turning ideas into fast, responsive and engaging websites and applications. I care deeply about the craft — clean code, smart structure, and interactions that feel natural.

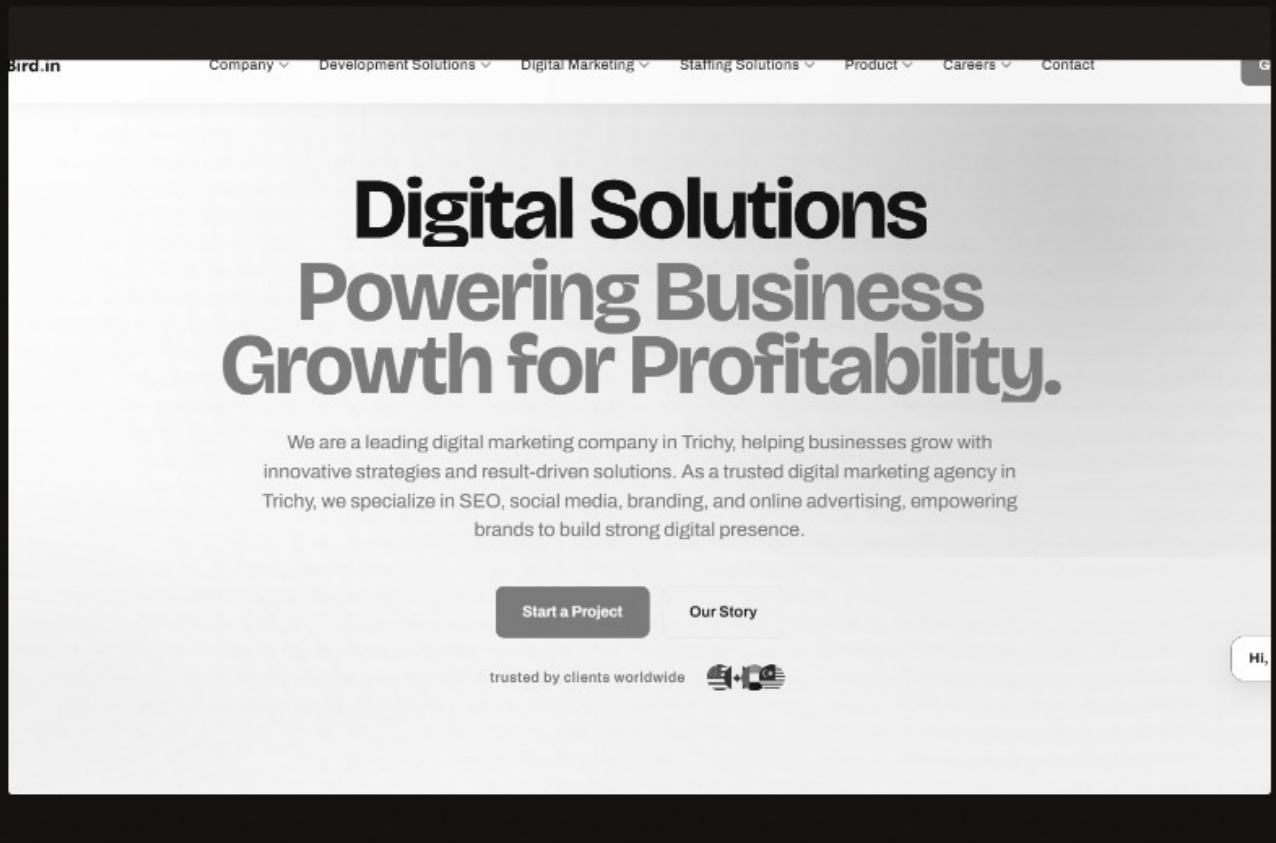
04 SELECTED WORK

04 PROJECTS



Digital Solutions Powering Business Growth for Profitability.

We are a leading digital marketing company in Trichy, helping businesses grow with innovative strategies and result-driven solutions. As a trusted digital marketing agency in Trichy, we specialize in SEO, social media, branding, and online advertising, empowering brands to build strong digital presence.

trusted by clients worldwide

PROJECT 01

Riverbird Digital

A full-featured digital agency website with custom animations, CMS integration and a performance-first architecture. Built to showcase services and convert visitors into clients.

REACT WORDPRESS PHP CSS

2025 **VIEW PROJECT →**

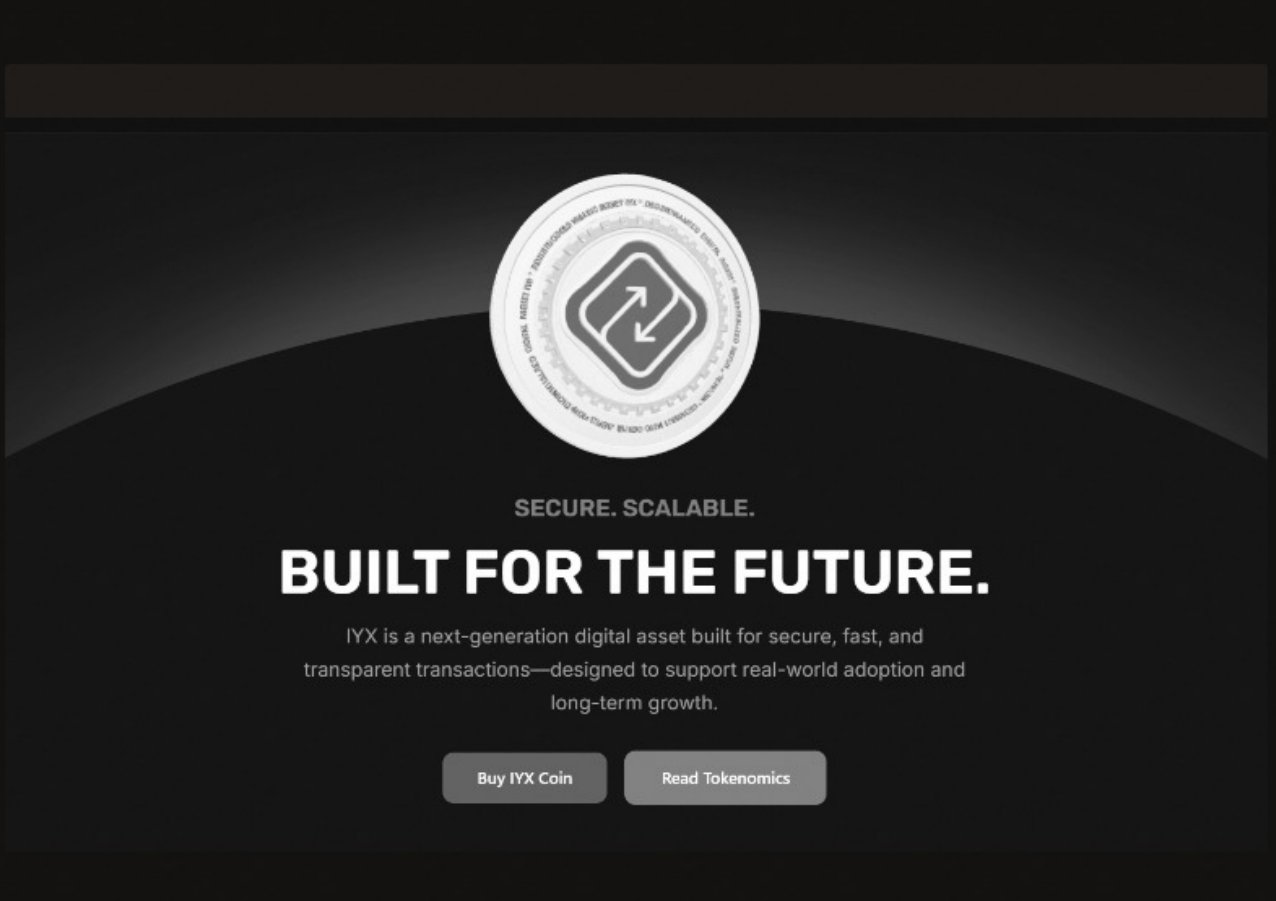
PROJECT 02

ShopEdge

A modern e-commerce storefront with a focus on conversion rate optimisation, fast load times and a seamless mobile checkout experience. WooCommerce backend with custom frontend.

WORDPRESS WOOCOMMERCE JAVASCRIPT PHP

2025 **VIEW PROJECT →**



SECURE. SCALABLE.

BUILT FOR THE FUTURE.

IYX is a next-generation digital asset built for secure, fast, and transparent transactions—designed to support real-world adoption and long-term growth.

DASHMETRICS

PROJECT 03

DashMetrics

A real-time analytics dashboard for small businesses. Clean data visualisations, filterable reports and a responsive layout built with React and Tailwind CSS.

REACT TAILWIND CSS JAVASCRIPT SQL

2024 **VIEW PROJECT →**

PROJECT 04

Portfolio v1

My previous personal portfolio — a minimal, dark-themed website built entirely with HTML, CSS and vanilla JavaScript. Focused on performance and clean typography.

05 EXPERIENCE

THE PATH SO FAR

2025

Web Developer

RIVERBIRD DIGITEL SOLUTIONS

Building and maintaining client websites using WordPress, React and PHP. Responsible for frontend architecture, performance optimisation and delivering responsive, accessible interfaces that meet business objectives.

2023

Freelance Web Developer

INDEPENDENT

Designed and developed websites for local businesses and startups. Built custom WordPress themes, e-commerce stores and landing pages with a focus on conversion and usability.

2022

Web Development

SELF-DIRECTED LEARNING

Began formal study of web development — mastering HTML, CSS, JavaScript and PHP. Built personal projects and contributed to open-source repositories to sharpen skills.

THE JOURNEY

From learning the fundamentals to building for the web.
